MARKETING EDUCATION

Overview of Marketing Education

Purpose:

The Marketing Education Program is designed to prepare students for postsecondary education and careers in marketing, management & entrepreneurship. Students develop knowledge and skills in the business administration core standards (business law, communication, economics, emotional intelligence, financial analyst, human resource management, information management, operations, professional development, strategic management) & the marketing core standards (distribution, marketing information management, pricing, product/service management, promotion, selling).

Goals:

- Develop critical thinking skills in order to make informed decisions.
- Integrate academic skills into the marketing/management/entrepreneurship/curriculum in order to insure that students develop excellent written & verbal communication skills, computational skills, & scientific problem-solving skills.
- Develop cooperative learning skills in order to work effectively with teams to find solutions to problems & create new systems.
- Demonstrate essential work habits & positive workplace ethics.
- Develop interpersonal skills & an appreciation for diversity through classroom experiences (co-ops, internships, practicums, shadowing, mentoring, etc.)
- Use technology to gather & present information, solve problems & manage the workflow.
- Demonstrate proficiency in the foundational & functional areas of marketing by applying the knowledge and skills learned through the curriculum, the work-based learning component and the competitive events (DECA activities).
- Manage work by effectively planning, organizing, and allocating resources.

Career Pathways:

- *Advertising*
- *E-Commerce*
- *Fashion Marketing*
- *Financial Services*
- *Hospitality, Travel Tourism & Recreation*
- *Management/Entrepreneurship*
- *Marketing*
- *Marketing Education*
- *Retailing/Wholesaling*
- *Sports Marketing*

Standard Based Curriculum:

The curriculum is composed of standards based competencies. Therefore, the teaching/learning focus is on the final results rather than the process. Marketing Education Teachers are lecturing less and facilitating more, and as a result, students are taking charge of their own learning by using technology to research topics, collect data and present information orally and in written form. More Marketing Education Programs are incorporating school-based enterprises in order for students to apply business and marketing concepts learned in the classroom.

Skill Standards:

The Kentucky Occupational skill Standards are the performance specifications that identify the knowledge, skills, and abilities an individual needs to succeed in the workplace. Identifying the necessary skills is critical to preparing students for entry into employment. Skill standards provide a common vocabulary to enhance communication between employers, student, and the school.

Because of the importance of skill standards today to educators, employers, and students who desire jobs after graduation from high school, the Office of Career and Technical Education in conjunction with employers from the Kentucky Retail Federation and the Kentucky Bankers Association worked to develop a system to certify that students have attained the necessary skills for employment. Standards were developed in the areas of Retail Services, Marketing, and Financial Services. These standards described the necessary **occupational, academic, and employability** skills needed to enter the workforce or post-secondary education. There is an on-going effort to continue to refine these standards by which exemplary Marketing Education Programs are evaluated and certified. The strength of these business partnerships insures that curriculum meets industry specifications.

School-Based Enterprises:

Running an actual business allows students to learn contextually without leaving school. Textbook concepts become real as students operate a business for profit, review and revise operational procedures, resolve problems and handle human relations issues.

Work-Based Learning:

Cooperative experiences, internships, shadowing and mentoring opportunities provide depth and breadth of learning in the instructional program and allow students to apply the concepts learned in the classroom. Students are exposed to a variety of careers and learn work ethics.

Student Organization:

Participation in DECA, an Association of Marketing Education Students, provides a vehicle for students to employ higher order thinking skills, to interact with high-level business people and to further enhance their leadership skills through their participation in regional, state and national competitive events and local activities.

Business/Marketing Concepts and Applications
Valid Course Code: 080711

Course Description: This course established basic foundations for further study in business and marketing courses and provides essential information for making financial and economic decisions. Students learn about the fundamentals of the American Free Enterprise System and work economics; application of sound money management for personal and family finances; credit management, consumer rights and responsibilities; forms of business ownership; risk and insurance; and the importance of international trade. Leadership development will be provided through FBLA and/or DECA.

Students will:

1. Demonstrate proper keyboarding techniques.
2. Apply formatting to block style letters, reports, charts/tables, spreadsheets, Power Point presentations, invitations and brochures.
3. Demonstrate the importance of communication skills.
4. Analyze and identify employee payroll, federal tax, state tax, and insurance and social security benefits for a company.
5. Explain the importance of demographics and location in working with an enterprise.
6. Demonstrate organization and care of workstation.
7. Identify characteristics of positive work habits and a good work ethic.
8. Demonstrate real-life situations in a business environment and justify decisions made on behalf of a business.
9. Identify the career options in private enterprise as well as the advantages and disadvantages.
10. Demonstrate what it is like to own and operate a small business.
11. Analyze the effects of consumer demand for products and services and determine target markets.
12. Utilize activities of FBLA/DECA as an integral component of course content and leadership development.

Advanced Marketing
Valid Course Code: 080717

Course Description: This course is designed to enhance marketing skills developed in the marketing prerequisite courses and to learn advanced marketing skills in such areas as advertising, customer service, supervision, and employee/employer relations for a wide range of marketing careers. This course is based on the business and marketing core that includes communication skills, emotional intelligence, economics, marketing, operations, promotion, marketing-information management and financial analysis. Leadership development will be provided through DECA activities and competitive events.

SUGGESTED PREREQUISITE: Principles of Marketing, Advertising & Promotions, Retail Marketing, Fashion Marketing, Food Marketing, Sports & Event Marketing, Travel & Tourism Marketing, OR other similar level Marketing Courses.

Content / Process

Students will:

1. Use computers/electronic equipment whenever possible, utilize business software, appropriate web software and other kinds of technology to collect, organize, and communicate information and ideas.
2. Develop employee/employer relations and other human relation skills through authentic simulations, role-plays, case studies, or cooperative education.
3. Demonstrate customer service skills and effective selling skills through role play and cooperative education.
4. Create a career portfolio after analyzing career goals, opportunities, and requirements. Research career options and match to personal career goals.
5. Develop skills that are needed to seek, obtain, maintain and change careers.
6. Demonstrate favorable attitudes/characteristics needed for career exploration, development and growth.
7. Demonstrate skills in reading, writing, and advanced communications through authentic simulations, role-plays, or cooperative education.
8. Utilize strategies needed to interact effectively with others through simulations, role-plays, or cooperative education.
9. Explain fundamental business management and entrepreneurial concepts that affect business decision making.
10. Demonstrate the concept of marketing strategies, market identification, distribution, pricing and selecting a product mix through various projects (i.e. marketing plan, business plan).
11. Analyze the role of promotion, types of promotion and the elements of the promotion mix through various projects (i.e. promotional plans, campaign plans).
12. Apply math and communication skills within the technical content.
13. Utilize activities of DECA as an integral component of course content and leadership development.
14. Demonstrate entrepreneurship decision making through projects and simulations.
15. Apply personal financial planning skills (budgeting, investing, goal setting and comparing credit options).
16. Analyze the factors involved in financing a business including financial statements, startup costs, financial aspects of a business plan, and financial analysis.
17. Demonstrate the concepts of marketing information management and its impact on marketing and business decisions through the collection, analysis, and dissemination of marketing information.
18. Identify individual work habits/ethics (individual/team skills, confidentiality, problem solving, punctuality, self-discipline, communication skills) and explain their importance in the work place.
19. Analyze the impact of the global economy on marketing functions.

Advertising & Promotion
Valid Course Code: 081511

Course Description: This course is designed to provide students with a realistic “hands-on” application of techniques used in the advertising and promotion of goods and services. Students use digital media (computer-generated text, graphics, photographs, sound and video) equipment, while being exposed to all forms of media (print, web page, etc.) used by industry. This course is based on the business and marketing core that includes communication skills, economics, financial analysis, product/service management and promotion. Leadership development will be provided through DECA.

SUGGESTED PREREQUISITE: Principles of Marketing

Content/Process

Students will:

1. Use computers/electronic equipment whenever possible, utilize business software, appropriate web software and other kinds of technology to collect, organize, and communicate information and ideas.
2. Explain the role of promotion as a marketing function.
3. Explain the types of promotions.
4. Identify the elements of the promotional mix.
5. Describe the use of business ethics in promotion.
6. Explain the types of advertising media.
7. Explain and give examples of how advertising and promotion influences the supply and demand of a product.
8. Demonstrate a knowledge of advertising principles as they apply to the creation of a website, print advertisement, or specialty advertisement.
9. Explain ways to make responsible buying decisions by evaluation promotional ads.
10. Compare features, benefits and price of products and services using various promotional items.
11. Develop a promotional plan.
12. Analyze how advertising & promotion jobs have changed due to scientific advancement and increased use of technology.
13. Use all types of digital media to design, organize and communicate information and ideas.
14. Analyze how advertising techniques (e.g., jingles, slogans, plain folks, facts & figures, glittering generalities, testimonial, bandwagon, emotional appeal) influence consumer decisions.
15. Prepare product promotions, community service promotions, and press releases.
16. Explain and evaluate crisis management (negative news releases).
17. Develop, plan, execute, and evaluate an advertising plan, including marketing research, calendars and budgets.
18. Establish a relationship between school and business activities by collaborating with business professionals.
19. Evaluate two advertising campaigns and identify the psychological guidelines and associated techniques used in each campaign.
20. Demonstrate a knowledge of advertising principles as they apply to the creation of a web site.
21. Utilize activities of DECA as an integral component of course content and leadership development.
22. Apply math and communication skills within the technical content.
23. Identify individual work habits/ethics (individual/team skills, confidentiality, problem solving, punctuality, self-discipline, communication skills) and explain their importance in the work place.

Business Economics—Interdisciplinary Course

Valid Course Codes:

080317 Marketing Education (CTE Credit) or 080318 (Social Studies Credit – Economics)

060511 Business Education (CTE Credit) or 060596 (Social Studies Credit - Economics)

Course Description: This course is designed to be a comprehensive study of economics which meets the economics requirement for graduation. It provides an in-depth study of how people produce, distribute, and consume goods and services. Economic terminology, theory, and a comparison of economic systems and policies are integral to the course. Simulations and/or actual work situations may be used to provide practical experience with various economic conditions.

Content/Process

Students will:

1. Discuss how economic policies are determined by elected officials
2. Demonstrate an understanding of the cause/effect of business cycles and how monetary and fiscal policy can be used to regulate these problems.
3. Compare the characteristics and benefits of a market economy, command economy, mixed economy and traditional economy and how each economic system answers the basic economic problem of scarce resources.
4. Examine the relationship between the government and the economy.
5. Utilize decision-making models to make economic choices and determine the opportunity cost of those choices.
6. Utilize activities of FBLA and/or DECA as an integral component of course content and leadership development.
7. Discuss how the economy of the United States attempts to meet the needs of its citizens
8. Understand why people from other nations have come to the United States because of economic opportunities.
9. Demonstrate employability and social skills relative to the career cluster.
10. Analyze economic concepts and understand their relevance to different economic situations.
11. Analyze the impact of international issues and concerns on personal, national, and international economics.
12. Analyze the role culture plays in economic issues of production, distribution, and consumption of goods and services.
13. Create graphs that illustrate shortages and surplus and describe how the market works to eliminate these conditions; identify the effects each change has on equilibrium, price and quantity.
14. Analyze current economic conditions by using economic indicators.
15. Understand that scarcity is the basic economic problem facing individuals, societies, and nations.
16. Analyze how a nation's wealth and trade potential are tied to its' resources.
17. Explore how international trade and multinational companies have led to a global economy.
18. Understand how the United States' economy has changed from a rural to an industrial economy to a leader in the global economy.
19. Appraise the effects of technological changes, changes in consumer preferences, price inputs, environment, and legislation on supply and demand and price of goods/services.
20. Create demand curve graph for two firms (one monopoly and one oligopoly) and explain the levels of output for a firm in perfect conditions
21. Apply math and communication skills within the technical content.

Financial Literacy—Interdisciplinary Course

Valid Course Codes:

080718 Marketing Education (CTE Credit) or 080719 Marketing Education (Math Credit)

060170 Business Education (CTE Credit) or 060171 Marketing Education (Math Credit)

Course Description: This course is designed to provide students with the knowledge and skills to manage one's financial resources effectively for lifetime financial security. Topics include economics, money in the economy, budgeting, credit, consumer rights, investments and retirement planning. Leadership development will be provided through FBLA/DECA.

Content/Process

Students will:

1. Define and give examples of economic needs & wants.
2. Explain why scarcity requires individuals, governments, and societies to make choices.
3. Define and give examples of the opportunity cost of personal choices.
4. Identify the types of economic systems (i.e., traditional, command, market, & mixed) and how they answer the questions of what, how, and for whom goods & services are produced.
5. Demonstrate an understanding of inflation and its effect on purchasing power.
6. Describe the role of the FDIC and the events that led to its creation.
7. Analyze how career choice, education, and skills effect income.
8. Explain the role of money in today's economy.
9. Identify types of currency (e.g., paper money, coins, bank notes, government bonds, treasury notes).
10. Examine the importance of re-evaluating financial plans as income and financial needs change throughout the life cycle.
11. Evaluate services & cost associated with a personal savings account.
12. Use appropriate steps in writing checks and reconciling a bank statement.
13. Differentiate among types of electronic monetary transactions (e.g., debit cards, ATM, automotive deposits/payments) offered by various financial institutions.
14. Compare cost and benefits of online and traditional banking.
15. Identify the functions of the Federal Reserve.
16. Explain how to use a budget to manage spending and achieve financial goals.
17. Describe the advantages and disadvantages of various savings and investing plans.
18. Understand interest and the time value of money.
19. Develop a personal financial plan, including goals, net worth, cash flow statement, insurance plan, investing plan and a budget.
20. Identify the costs and benefits of various types of credit.
21. Explain how credit card grace periods, methods of interest calculations, and fees affect borrowing costs.
22. Compare and contrast various types of loans(e.g., installment, mortgage, balloon, home equity).
23. Explain credit ratings and credit reports and describe why they are important to consumers.
24. Explain the cause and effect of bankruptcy.
25. Identify consumer credit laws and explain the protection they provide.
26. Identify and state the purpose of legislation that regulates consumer credit and electronic credit transactions.
27. Develop skills needed to protect from identity theft.
28. Explain the different taxes that affect an individual's income (e.g., payroll, income, FICA).
29. Differentiate between gross and net income.
30. Complete various documents for reporting taxes (e.g., W-2, W-4, 1040, 1040EZ).
31. Analyze the cost and benefits of paying taxes.
32. Describe types of benefits (e.g. retirement, insurance, leave, stock purchases) offered by employers.
33. Identify types of insurance (e.g., automotive, health, home, life.) an individual should own.
34. Compare & contrast major types of investment alternatives (e.g., IRA, 401K, mutual funds).
35. Discuss the reasons why an individual might need a savings or investment plan (e.g., emergencies, long & short term goals, retirement).
36. Identify regulatory agencies and their functions (e.g., Federal Deposit Insurance Company (FDIC), Securities Exchange Commission (SEC), Federal Reserve, Internal Revenue Services (IRS).
37. Demonstrate employability and social skills relative to the career cluster.
38. Apply math and communication skills within the technical content.

Food Marketing

Valid Course Code: 080721

Course Description: This course prepares the student for the challenging field of retail food marketing, including the marketing of food, beverages, and related products through various types of retail stores. This course is based on the Business and Marketing Core that includes operations, strategic management, professional development, promotions, product/service management, distribution, pricing, and selling. Instruction can be enhanced through the use of a school-based enterprise (such as a Kroger Store) and its activities. Both marketing and employment skills learned will increase the chance of successful transition into the world of work. Leadership development will be provided through DECA activities and competitive events.

Content/Process

Students will:

1. Use computers/electronic equipment whenever possible, utilize business software, appropriate web software and other kinds of technology to collect, organize, and communicate information and ideas.
2. Identify the types of business in food marketing.
3. Explain the roles, functions, and services of food manufacturers, agent/broker, wholesalers, and distributors to the food marketing industry.
4. Describe trends and issues in the food marketing industry.
5. Explain the role of the food marketing industry in the free enterprise system.
6. Describe the economic concepts of supply and demand and customer wants and needs as they impact retail food marketing.
7. Explain the purpose of financial records (budgets, balance sheets, and income statements) in relation to retail food marketing.
8. Implement the tasks for store operations including basic stock lists, method of receiving goods, product selection ordering procedures, constructing displays, tagging and signage of merchandise, cashiering skills and basic housekeeping policies and procedures.
9. Explain how the basic marketing functions are implemented in the retail food store.
10. Describe the impact of market segmentation at the retail food store level, including analysis of target market and buying behavior.
11. Describe the typical channels of distribution for selected products in each department of a retail food store.
12. Explain the importance of pricing as a factor in the success or failure of a retail food store.
13. Describe the nature and scope of external and internal promotional strategies.
14. Describe typical types of customer services provided in the retail food store.
15. Explain the functions of management in a retail food store.
16. Develop a plan for effective communication and team building between retail food store managers and employees.
17. Apply mathematical principles in analyzing both cost and retail price, mark-up, profit margin, gross sales, net sales, net profit, net inventory value and monthly turnover rate.
18. Identify the required safety and sanitation procedures in the food marketing industry, implement good person hygiene, product safety and sanitation, recognize the importance of local, state and federal laws pertaining to safe product handling, storage and display.
19. Explain ways to address risk management as it applies to loss prevention methods and security issues, including typically occurring customer accidents, legal issues, labor disputes, shoplifting, employee pilferage and theft, bad checks and counterfeiting.
20. Identify career opportunities within the levels of the food marketing industry. Students will demonstrate employability and social skills relative to the food marketing industry and create a long-range career plan which includes training, education, experience and work-based learning.
21. Identify and determine personal opportunities available within the Marketing program, as well as the DECA events relating for the Food Marketing career area.
22. Identify individual work habits/ethics (individual/team skills, confidentiality, problem solving, punctuality, self-discipline, communication skills) and explain their importance in the work place.

International Marketing
Valid Course Code: 080915

Course Description: This course is designed to explore the cultural, economic, political, legal, and technological environments facing international marketers in today's global economy. Students will find out what it takes to be a successful international marketer and open up a world of opportunity. Leadership development will be provided through DECA.

SUGGESTED PREREQUISITE: Principles of Marketing or its equivalent.

Content/Process

Students will:

1. Research the impact of different cultural aspects on international trade (cultural diversity and demographics in international markets.)
2. Examine the impact of geography on international trade.
3. Analyze current trends concerning international economics.
4. Investigate careers available in international marketing.
5. Demonstrate a knowledge of the importance of emerging trends and technologies in international marketing.
6. Evaluate the economic interdependence of different countries.
7. Analyze the major trade agreements governing world trade and demonstrate a knowledge of the principal functions of international and United States governmental agencies responsible for promoting international commerce and stability.
8. Compare the different types of barriers and trade supports.
9. Compare and contrast international marketing with target marketing.
10. Describe the similarities between multinational marketing and mass marketing.
11. Examine the standard business practices involved in exporting and importing.
12. Assess cultural, economic, and political influences of multinational businesses.
13. Research the cultural, economic, and political differences and similarities among countries.
14. Explain how international money markets function.
15. Describe how language, culture, available media, and regulations affect international advertising.
16. Utilize activities of DECA as an integral component of course content and leadership development.
17. Demonstrate employability and social skills relative to the career cluster.
18. Apply math and communication skills within the technical content.

Internet Marketing
Valid Course Code: 081310

Course Description: This course provides an in-depth study in electronic marketing/commerce associated with the internet or sometimes called E-Commerce. Students learn how to practice good marketing principles in an “electronic” marketing place. This course is based on the Business and Marketing Core that includes communication skills, distribution, product/service planning, promotion, and selling. Leadership development will be provided through DECA.

Content/Process

Students will:

1. Use computers/electronic equipment whenever possible, utilize business software, appropriate web software and other kinds of technology to collect organize communicate information and ideas
2. Explain the impact of the Internet on marketing
3. Identify ways that technology impacts business
4. Survey the various disciplines in electronic marketing (i.e., promotion, store pricing, purchasing, web sales, warehousing, distribution, staffing, site maintenance and customer relations).
5. Apply math, science, and communication skills within the technical content.
6. Reinforce communication, human relations, writing and speaking skills through communications in the promotion, sale, site maintenance and customer service units.
7. Demonstrate problem-solving and decision-making skills as they apply in human relations, market information management, site maintenance or product service planning.
8. Develop real-life portfolio entries through web sites, web pages, and electronic advertisement learned in promotion unit.
9. Investigate the various types of risks that impact business activities; categorize the risks as natural, human, electronic, or economic; and explain methods a business uses to control risks and security in the electronic market.
10. Understand the role and characteristics of marketing in three different types of economic systems: capitalism, socialism and communism in a world wide electronic market.
11. Utilize activities of the DECA student organization as an integral component of course content and leadership development.
12. Create a career portfolio including a resume, letters of reference, certifications of training, and samples of work.
13. Investigate and analyze the role of technology in improving the marketing process.
14. Develop a marketing plan for a new or existing business or product line.
15. identify individual work habits/ethics (individual/team skills, confidentiality, problem solving, punctuality, self-discipline, communication skills) and explain their importance in the work place

Leadership Dynamics
Valid Course Codes:
080799 Marketing Education or 060196 Business Education

<p>Course Description: This course is designed to assist students with developing skills needed to be successful leaders and responsible members of society. The student will develop personal attributes and social skills. Emphasis will be placed on interpersonal skills, team building, communication, personal development and leadership. This course will include opportunities for students to apply their knowledge.</p>
<p>Content/Process</p>
<p>Students will</p> <ol style="list-style-type: none"> 1. Develop personal and group goals. 2. Compare the types of leadership styles. 3. Assess the importance of qualified leaders to the success of organizations. 4. Appraise personal characteristics of successful leaders. 5. Develop verbal and non-verbal communication skills to enhance success in school and transition to the work of work. 6. Demonstrate appropriate business/professional etiquette. 7. Demonstrate shared decision making. 8. Develop techniques to resolve conflicts that occur in school, home, community, and workplace (interpersonal team skills). 9. Demonstrate the use of parliamentary procedure skills in presiding over a meeting. 10. Describe how ethical and social behaviors affect our lives. 11. Identify self-management techniques. 12. Identify stress management techniques. 13. Analyze organizational structures and their components (including bylaws, officers, committees, and program of work.) 14. Demonstrate awareness of cultural diversity and equity issues. 15. Analyze leadership opportunities available in the school and community.

Marketing Education Co-Op
Valid Course Code: 080707

Course Description: Cooperative Education for CTE courses provide supervised work site experience related to the student's identified career pathway. A student must be enrolled in an approved capstone course during the same school year that the co-op experience is completed. Students who participate receive a salary for these experiences, in accordance with local, state and federal minimum wage requirements according to the Work Based Learning Guide.

Content/Process

Students will:

1. Demonstrate and practice safe work habits at all times.
2. Gain career awareness and the opportunity to test career choice(s)
3. Receive work experience related to career interests
4. Integrate classroom studies with work experience
5. Receive exposure to facilities and equipment unavailable in a classroom setting
6. Increase employability potential

Marketing Education Internship
Valid Course Code: 080708

Course Description: Internship for CTE courses provide supervised work-site experience for high school students who are enrolled in a capstone course associated with their identified career pathway. Internship experiences consist of a combination of classroom instruction and field experiences. A student receiving pay for an intern experience is one who is participating in an experience that lasts a semester or longer and has an established employee-employer relationship. A non-paid internship affects those students who participate on a short-term basis (semester or less). All information referenced to the Work Based Learning Guide

Content/Process

Students will:

1. Demonstrate and practice safe work habits at all times.
2. Gain career awareness and the opportunity to test career choice(s)
3. Receive work experience related to career interests
4. Integrate classroom studies with work experience
5. Receive exposure to facilities and equipment unavailable in a classroom setting
6. Increase employability potential

Mathematics for Business and Industry—Interdisciplinary Course

Valid Course Codes:

080772 Marketing Education (CTE Credit) or 080780 (Math Credit)

060172 Business Education (CTE Credit) or 060190 (Math Credit)

Course Description: This course enables the student to explore mathematical content for personal, business, and industrial use. Math concepts and skills are applied through study and problem-solving activities in real-world situations in the following areas: banking, measurement, borrowing and investing, consumer purchases, and financial management. Appropriate business forms are used in each unit. Leadership development will be provided through FBLA/DECA.

Content/Process

Students will:

1. Use the touch method on electronic calculators to solve real-world mathematical problems which relate to business and industry.
2. Apply math and communication skills within the technical content.
3. Use mathematical operations to enable students to understand gross and net income and different methods of earning income.
4. Demonstrate mathematical reasoning in figuring and recording checking and savings account transactions.
5. Calculate simple and compound interest of an initial investment over a set amount of time.
6. Calculate a function identifying the dependent and independent variables (i.e., unit price=price per time divided by measure or count).
7. Write a two variable equation to represent the amount of a lease payment (i.e., if the lease pays \$17 per \$1,000).
8. Calculate the mean and standard deviation of the daily closing cost on a particular stock and plot the data and draw the curve of best fit.
9. Use a spreadsheet to calculate monthly interest, principal amount, and balance on a personal or business loan.
10. Analyze financial statements and calculate current ratio, debit-equity ratio, and return on capital.
11. Write and solve equations with two variables such as calculating gross pay based on salary plus commission.
12. Research and analyze career opportunities requiring application of math skills.
13. Use mathematical reasoning to compare cash purchases, credit cards, charge accounts, markups, and discounts.
14. Demonstrate mathematical reasoning in calculating various types of loans, investments, and interest, including compound interest.
15. Design and manipulate spreadsheets and graphs according to the availability of technology.
16. Use mathematical problem solving to figure the costs involved in purchasing and maintaining a vehicle and a home and the methods of figuring depreciation.
17. Identify and compare various types of insurance.
18. Demonstrate mathematical applications relating to personnel, production, sales, marketing, warehousing, and distribution.
19. Demonstrate employability and social skills relative to the career cluster.
20. Utilize activities of FBLA & DECA as an integral component of course content and leadership development.

Principles of Hospitality
Valid Course Code: 080910

Course Description: This course is designed for students interested in marketing careers in the hospitality industry. The instruction includes career awareness in the areas of recreation, travel/tourism, hotel/motel, and restaurant. This course is based on the business and marketing core that includes communication skills, economics, operations, promotion, selling, and product/service management. Leadership development will be provided through DECA activities and competitive events.

Content/Process

Students will:

1. Use computers/electronic equipment whenever possible, utilize business software, appropriate web software and other kinds of technology to collect, organize, and communicate information and ideas.
2. Describe the evolution and current trends in the hospitality industry.
3. Identify and describe major types of businesses found in the hospitality industry.
4. Describe social, environmental, economic and business factors related to the hospitality industry.
5. Develop customer-service skills, employee/employer relations and other interpersonal skills.
6. Identify advantages and disadvantages of working in the hospitality industry.
7. Explain the impact of meetings, conventions, and conferences on the economy.
8. Illustrate the service delivery system of a full-service hotel and make an oral presentation.
9. Shadow an individual in the restaurant industry and create a job description for a newspaper ad for this position.
10. Plan management operations for a special event that involves all aspects of hospitality careers in the travel tourism arena.
11. Describe the types of promotional strategies and media used in the hospitality industry.
12. Apply math and communication skills within the technical content.
13. Identify the concept of marketing mix and market segmentation as it relates to the hospitality industry.
14. Research career opportunities, job responsibilities and employment requirements in the hospitality industry.
15. Utilize activities of DECA as an integral component of course content and leadership development.
16. Identify individual work habits/ethics (individual/team skills, confidentiality, problem solving, punctuality, self-discipline, communication skills) and explain their importance in the work place.

Principles of Marketing

Valid Course Code: 080716

Course Description: This course provides a basic foundation for further study in marketing. Students study economic functions at work in the marketplace, marketing functions including purchasing, pricing, and distribution functions. This course is based on the business and marketing core that includes communication skills, economics, financial analysis, and promotion. Both marketing and employment skills learned will improve and increase the chance of successful transition into the world of work. Leadership development will be provided through DECA activities and competitive events.

Content/Process

Students will

1. Use computers/electronic equipment whenever possible, utilize business software, appropriate web software and other kinds of technology to collect, organize, and communicate information and ideas.
2. Identify and determine personal opportunities available within the Marketing program, (through both the course work and DECA) which will allow success during the high school career.
3. Interpret the importance of economic principle and apply the knowledge to real-life scenarios using classroom activities and materials.
4. Analyze the various disciplines in marketing (i.e., purchasing, inventory control, sales, warehousing, distribution, staffing, and customer relations).
5. Apply math and communication skills within the marketing content.
6. Analyze and apply skills associated with communication, human relations, writing and speaking skills through communications in the promotion and salesmanship units.
7. Demonstrate problem-solving and decision-making skills as they apply in economics, personal finance, human relations, distribution, or product service planning.
8. Develop real-life portfolio entries through brochures or advertisement learned in promotion unit.
9. Demonstrate employability and social skills relative to the career cluster.
10. Investigate the various types of risks that impact business activities; categorize the risks as natural, human or economic; and explain methods a business uses to control risks.
11. Interpret the role and characteristics of marketing in three different types of economic systems: capitalism, socialism, and communism.
12. Incorporate activities of DECA as an integral component of course content and leadership development.
13. Develop a career portfolio including a resume, letters of reference, certifications of training, and samples of work.
14. Analyze and apply the role of technology in improving the marketing process.
15. Describe and evaluate a marketing plan for a new or existing business or product line.
16. explain ways to make responsible buying decisions in relations to wants and needs
17. compare products & services based on these factors (e.g., price, quality, availability, comparison shopping) to consider when making consumer decisions
18. Identify individual work habits/ethics (individual/team skills, confidentiality, problem solving, punctuality, self-discipline, communication skills) and explain their importance in the work place.

Principles of Teaching
Valid Course Code: 320120

Course Description: This course provides opportunities for students with an interest in teaching to develop skills, strategies, and techniques used for instruction at various grade levels. Instruction addresses the principles and procedures for promoting the physical, emotional, social, and intellectual development of children, adolescents and developmentally appropriate practices in educational settings. Students will gain work experience in classrooms with certified teachers as part of their course work. Other components include the development of a four-year post-secondary plan, salaries and benefits of a teacher, job security, and future projections of the job market.

Leadership

Content/Process

Students will:

1. Develop a lesson plan using strategies/methods taught in class.
2. Teach a lesson using the lesson plan developed by the student.
3. Compile the characteristics of an effective teacher.
4. Trace through time the history of American education.
5. Describe the requirements to become a teacher.
6. Identify the qualities of teacher professionalism and leadership.
7. Explore diversity and its implications in the classroom, including diverse teaching methods.
8. Observe, interact and reflect on teaching and learning in classrooms.
9. Describe how education systems are organized.
10. Define curriculum and identify the forces that influence its development.
11. Analyze different methods used to assess student learning.
12. Identify issues and challenges in education today such as No Child Left Behind, changing family patterns, cultures of schools, etc.
13. Identify career opportunities for educators.
14. Develop a four-year post-secondary plan.
15. Utilize activities of a career and technical student organizations as an integral component of course content and leadership development.
16. Apply math, science and communication skills within technical content.
17. Demonstrate employability and social skills relevant to the career cluster.

Promotional Applications & Media
Valid Course Code: 081512

Course Description: This course is designed to provide students with hands-on applications, of running a school based industry simulated experience. Students will apply basic fundamentals of advertising using digital and print media. This course is based on the business and marketing core that includes communication skills, economics, financial analysis, product/service mgt and promotion. Leadership development will be provided through DECA.

Content/Process

1. Use computers/electronic equipment whenever possible, utilize business software, appropriate web software and other kinds of technology to collect, organize, and communicate information and ideas.
2. Demonstrate an understanding of digital media.
3. Utilize digital audio, digital video, the World Wide Web and other technologies that can be used to distribute digital content.
4. Prepare a graphic presentation that describes and gives examples of the elements of the promotional mix.
5. Research the development of internet advertising (e-mails, portal, banner ads) over the past decade.
6. Demonstrate a fundamental knowledge of marketing concepts and promotional media as they relate to a specific business.
7. Analyze the promotional mix of various businesses and make recommendations for media selections.
8. Develop a one-year budget for promotional media based on anticipated sales.
9. Identify misleading or deceptive advertising practices
10. Demonstrate how to select and use appropriate media software to promote products or services.
11. Develop a website for school based enterprise.
12. Create a 15 second video advertising the school based enterprise.
13. Apply advertising fundamentals in developing a print ad for the school newspaper.
14. Produce a slide show from a storyboard using text, graphics and sound with appropriate transition and effects.
15. Analyze how advertising & promotion jobs have changed due to scientific advancement and increase use of technology.
16. Apply math and communications skills needed in the advertising and promotion industry.
17. Identify individual work habits/ethics (individual/team skills, confidentiality, problem solving, punctuality, self-discipline, communication skills) and explain their importance in the workplace.

Retail Marketing

Valid Course Code: 081411

Course Description: This course is designed to provide an overview of the marketing responsibilities of individuals employed in the retail industry. This course is based on the business and marketing core that includes communication skills, operations, distribution, marketing-information management, pricing, product/service management, promotion and selling. The Kentucky Occupational Retail Services Skill Standards are integrated into this course giving students the opportunity to receive Retail Skill Standards Certification. Leadership development will be provided through DECA activities and competitive events.

Content/Process

Students will:

1. Use computers/electronic equipment whenever possible, utilize business software, appropriate internet links and other kinds of technology to collect, organize, and communicate information and ideas.
2. Identify types of retailers (e.g., brick-and-mortar, e-commerce, etc.).
3. Investigate successful retailers of the past and present.
4. Identify and determine business risk factors.
5. Formulate awareness and understanding of emerging trends and globalization in retailing.
6. Explain when and how to buy merchandise for a retail store.
7. Identify aspects of product and service planning like packaging, warranties and selecting the right product mix.
8. Explain the factors affecting pricing decisions including legal considerations and competition.
9. Conduct a physical inventory of a school based enterprise, marketing department, or local retail store.
10. Develop spreadsheets and utilize other computer software for the purpose of controlling and tracking inventory.
11. Apply economic concepts like supply and demand, competition, scarcity and opportunity costs.
12. Compare products and services based on price, quality, features, and warranties to understand consumer decision making.
13. Develop customer-service skills and practice in role play situations.
14. Demonstrate the selling process (open the sale, question, handle objections, present features and benefits, suggestive selling, close, and follow-up).
15. Develop spreadsheets and utilize other computer software for the purpose of measuring sales and making decisions from information gathered.
16. Develop a research tool as a part of a marketing research project.
17. Develop a promotion plan after examining each part of the promotional mix.
18. Identify risk management techniques related to employees, safety, security and loss prevention.
19. Research career choices in retailing and match with personal goals.
20. Create a career portfolio including a resume, letters of reference, certifications of training and samples of work.
21. Identify individual work habits/ethics (individual/team skills, confidentiality, problem solving, punctuality) and explain their importance in the workplace.
22. Demonstrate skills needed for effective personal financial planning (including budgeting, investing, consumerism and credit management).
23. Apply math and communication skills within the technical content.
24. Utilize activities of DECA as an integral component of course content and leadership development.

Sports and Event Marketing

Valid Course Code: 081121

Course Description: This course is designed to develop a thorough understanding of the marketing concepts and theories that apply to sports and events. This course is based on the business and marketing core that includes communication skills, distribution, marketing-information management, pricing, product/service management, promotion, selling, operations, strategic management, human resource management, and the economic impact and considerations involved in the sports and event marketing industries. Leadership development will be provided through DECA.

Content/Process

Students will:

1. Use computers/electronic equipment whenever possible, utilize business software, appropriate web software and other kinds of technology to collect, organize, and communicate information and ideas.
2. Develop knowledge of marketing research and its importance to sports and event marketing.
3. Develop an understanding of career opportunities in the sports and event industry.
4. Demonstrate a fundamental knowledge of marketing concepts, functions, and strategies as they relate to sports and events.
5. Identify the role and components of sponsorships.
6. Identify and evaluate why businesses would sponsor a sports property or event.
7. Explain the role and types of promotions.
8. Identify the components of a promotion mix for a sports marketing or entertainment event.
9. Explain the process of developing and the factors involved in developing a promotion plan for an event or sports property.
10. Describe the importance of personal selling and customer service in sport/event marketing.
11. Describe relationships and factors that motivate people to participate in/attend sport/event.
12. Describe the importance of advertising and media selection in promoting a sports/entertainment event.
13. Analyze the impact of legal issues (i.e. contracts, unions, intellectual properties, liability/risk management) on the sport/event industries.
14. Identify the components of branding, licensing, and intellectual properties within the sports and event industry.
15. Discuss the economic impact of sports/events on local communities/regions.
16. Demonstrate an understanding of basic economic concepts (i.e. supply and demand, price elasticity, economic utility, free enterprise).
17. Explain the factors involved in planning, conducting, and evaluating a sporting and or entertainment event.
18. Apply math and language arts skills relevant in the sports/event industry.
19. Describe employability skills required for success in the sports/entertainment marketing industry.
20. Utilize activities of DECA as an integral component of course content and leadership development.
21. Identify individual work habits/ethics (individual/team skills, confidentiality, problem solving, punctuality, self-discipline, communication skills) and explain their importance in the work place.
22. Describe the factors involved in offering a product/service or product mix based on market opportunities in the sports and event industry.
23. Describe the factors involved in selecting the distribution channels and methods in the sports and event industry.
24. Describe the factors involved in the pricing decision in the sports and event industry.

Travel and Tourism Marketing
Valid Course Code: 080911

Course Description: This course introduces the student to the travel and tourism industry. This course is based on the Business and Marketing Core that includes communication skills, economics, human resource management, promotion, marketing-information management, and selling. Instruction includes domestic and international travel, sales techniques, transportation methods (road, water, air, railway), food and beverage marketing, and destination marketing. Leadership development will be provided through DECA.

Content/Process

Students will:

- Use computers/electronic equipment whenever possible, utilize business software, appropriate web software and other kinds of technology to collect, organize, and communicate information and ideas.
- Identify and describe the career opportunities, job responsibilities, and employment requirements in the travel and tourism industry.
- Describe the qualifications of a travel consultant and the services they provide.
- Contrast the advantages of proprietorship, partnership or corporation as an organizational structure for a travel agency.
- Describe the impact travel and tourism has on the local, state and national economy.
- Identify the concept of marketing mix and marketing segmentation as it relates to the travel & tourism industry.
- Describe the current trends in the travel & tourism industry.
- Identify and describe major businesses found in travel & tourism.
- Describe social, environmental, economic and business factors that impact travel & tourism.
- Describe the types of products & services hotel & lodging facilities offer to the business travel market.
- Describe the types of promotional strategies used in the travel & tourism industry.
- Identify factors that impact the profit margin of different types of businesses in the travel & tourism industry.
- Outline the type of marketing research that should be conducted prior to developing a marketing plan for a selected hotel.
- Identify trends in the use of technology in the travel & tourism industry.
- Apply math and communication skills within the technical content.
- Identify key web sites that provide up-to-date information.
- Identify individual work habits/ethics (individual/team skills, confidentiality, problem solving, punctuality, self-discipline, communication skills) and explain their importance in the work place.
- Research travel destinations exploring a variety of geographic locations and identify their cultural differences
